

## CITY GOVERNMENT COST \$1,570 A WEEK

Total of \$81,608.02 Expended by Municipality in 1919, According to Report of Treasurer.

### BALANCE OF \$519 JANUARY 1

Light Which Cost \$8,336 During The Year Was the Largest Single Item of Expense.

The operation of the city government in 1919 cost an average of \$1,570 per week, according to the annual report which was filed today by Harry Findley, clerk-treasurer. The statement shows that the total expenditures during the twelve months just ending were \$81,608.02. The treasury has a balance of \$519.15. Of this sum \$473.95 is in the special fund, and \$45.20 in the general fund.

The largest item under the receipts was \$47,410.69 received in taxes, and the biggest single item of expense during the year was for street lights which cost a total of \$8,336.36. A total of \$5,393.33 was paid out in salaries. The police department cost \$2,480.54 and the fire department expenses for the same period were \$3,852.12.

The itemized report of Mr. Findley follows:

#### Lyceum Course.

The next number on the Lyceum course will be given by the Criterion Quartet at the Christian church Friday evening Jan. 9 at 8 o'clock.

The Criterion Male Quartet of New York City has won for itself an enviable reputation. The individual and collective merits of these artists are unquestionable, and no quartet in this country has gained such notable comment from critics of music. They have appeared on the same programs with the late Madame Nordica, David Bispham, Madame Schumann-Heink, the U. S. Marine Band, etc., etc. At Ocean Grove, they appeared with "Billy" Sunday, and during the ten weeks of their engagement appeared before 250,000 people.

Louis O. Wieneke, who for several months has been employed at the local postoffice, has been appointed a member of the regular carrier force in the city to fill the vacancy caused by the death of S. V. Jackson. However, it has not been definitely decided who will succeed Mr. Jackson as carrier in the business district.

## ADVOCATES PLUMB PLAN IN ADDRESS

The Rev. F. A. Hayward Discusses Railroad Management on Speech on "Industrial Unrest."

### REFERS TO RECENT STRIKES

Common Understanding is Necessary to Definite Readjustment, Declares The Speaker.

In an address on "The Industrial Unrest," which he delivered at the Knights of Pythias Hall Tuesday night under the direction of organized labor in this city, the Rev. F. A. Hayward congratulated the "men of the steel rails" upon their interest in the movements of the day. The hall was filled by people who were interested in what Mr. Hayward would have to say on this subject. A musical program was given during the evening.

John Darling presided at the meeting and with well chosen words introduced the speaker. "Any full or complete study of the 'industrial unrest' is impossible in a single address," said Mr. Hayward, "but the intelligent application of an attempt to bring about a better relationship and a fair distribution of railroad returns on the part of the federated brotherhoods is worthy of discussion. The Plumb plan, which more than any other plan proposed for the solution of the railroad tangle should be clearly understood and studied in contrast with the Esch or Cummins bills dealing with the same great subjects."

Mr. Hayward then gave a lengthy explanation of the early development of the railroads showing that

### MURDERER OF FORMER RESIDENT IS SENTENCED

Man Alleged to Have Killed Elisha Grimes at Mt. Carmel, Ill., to Spend 99 Years in Prison.

J. W. Adams, a New Albany man, who is alleged to have murdered Elisha Grimes, a former resident of Crothersville, at Mt. Carmel, Ill., several days ago has been sentenced to serve a term of ninety-nine years in the Joliet penitentiary. Adams pleaded guilty to first degree murder.

The murdered man was a resident of Jackson county for a number of years. He was engaged in business at Crothersville and at Brownstown for some time and had a large acquaintance in the county.

### IN JAIL AT SCOTTSBURG

Furs Said to Have Been Stolen Brought To This City.

Preston Harmon, a young man residing at Scottsburg is in jail at that place charged with stealing some valuable furs from B. F. Whitson which he brought to this city and sold. Mr. Whitson learned that the young man had boarded a car at Scottsburg with a large package under his arm and traced him to this city where it was learned that he had disposed of the furs. Harmon was with his sweetheart at Crothersville and was just leaving a picture show when placed under arrest.

### GENERAL PERSHING MEETS YOUNG AMERICA

This photograph, taken during the visit of General Pershing to Camp Jackson, S. C., shows the general holding the hand of little Miss Elaine Wildrick, daughter of Lieut. Col. E. W. Wildrick of the Forty-fourth coast artillery. The general took the little lady in his arms and gave her a kiss.

## MUST SHOW GROSS AND NET INCOMES

Normal Rate of Four Percent, Paid on First \$5,000—Surtax This Year is One Percent.

### HOW TO FIGURE NET INCOME

Husband and Wife Whose Combined Income is \$2,000 or More Must File Return.

What constitutes a "net" income under the income tax law, has been the subject of much discussion. A taxpayer under this law is required to pay only on his net income, which is ascertained by making all deductions allowed from his gross income.

In making out his income-tax return the taxpayer is required to show both gross and net income. Gross income includes practically every dollar the taxpayer received during the year 1919. In arriving at net income, upon which the tax is assessed, he is allowed certain deductions, which will be explained later, plus the amount of his exemption. Incomes below \$5,000 are exempt from surtax. The single man with no dependents and an income for 1919 of \$2,000 will pay a tax of \$40 instead of \$60 as for 1918, and a married man with an income of \$2,

### NECESSARY TO AMPUTATE BIG TOE ON RIGHT FOOT

Nathan Stewart Accidentally Shot While Out Hunting Tuesday Afternoon.

Nathan Stewart, who resides on South Broadway street was seriously injured Tuesday afternoon while out hunting. The gun which he was carrying was accidentally discharged and the shot went through his shoe taking effect in his foot. He returned to the city and was taken to the hospital where the physicians found it necessary to amputate the great toe which was practically severed from the foot. The two adjoining toes were injured but the physicians think that they can be saved. Mr. Stewart was able to return to his home this morning. However, it will be several weeks before he will be able to walk on the injured foot.

## FIVE SUNDAYS IN SHORTEST MONTH

First Time in Hundred Years That So Many Church Going Days Have Come in February.

### LEAP YEAR ADDS ANOTHER DAY

Decoration Day, Independence Day And Even Halowe'en Fall on Sunday—Easter April 4.

February, the shortest month of the year, will be unusual in several respects. In the first place leap year will add the twenty-ninth day, which comes every fourth year. The most unusual feature about the month, however, is that it will have five Sundays. No one living today ever remembers a February with so many church going days, for it has been a century ago since five Sundays came within the month. The month begins on Sunday and also closes on Sunday.

Confirmed and irreconcilable bachelors look askance, even with alarm, at the month. The reason, of course, is that 1920 is leap year and February comes to the rescue of unmarried girls of marriageable age with an extra Sunday. Five whole days on which business activities of possible husbands are suspended;

### UNITED MINE WORKERS VOTE APPROVAL OF SETTLEMENT

Radical Element of Organization Swings Only Small Percentage Of Total Membership.

Columbus, O., January 7—United Mine Workers of America, meeting here, ratified the plan under which the recent coal strike was ended, by a vote of 1,639 to 221.

The vote came at the end of a stormy session in which the radical element of the union fought to block approval of the project. Under terms of the settlement, President Wilson's commission of three men will fix the basis of wages for bituminous miners.

#### Notice.

All persons knowing themselves to be indebted to the late Dr. M. F. Gerrish will please call at my residence at once and settle said accounts. After January 31 the accounts will be placed in the hands of a collector so that the estate may be closed.

### NO COURT TODAY

Case Set for Trial Postponed Until Later Date.

No court was held at the courthouse in Brownstown today by Judge James A. Cox as there were no cases ready for trial. The case of the Independent Long Distance Telephone Company vs. Scott County Telephone Company, a suit on contract, was set for trial today but was postponed at the request of attorneys in the case.

## UNDERWOOD WANTS VOTE ON TREATY

Warns That if Agreement is Not Reached Speedily He Will Call Up Resolution.

### WORD FROM WILSON AWAITED

President Expected to Announce Wishes in Message to Democrats on Jackson Day.

By United Press

Washington, January 7—Senator Underwood in the senate today served notice on those working for a treaty compromise that if they do not speedily reach an agreement, he will call up his resolution for a conciliation committee. Democratic proposals for a peace treaty compromise are unacceptable in their present form to Senator Lodge and his followers because they fail to agree with the Lodge view on Article 10, senators of the Lodge said today.

The democratic reservations will be revised by mild reservationist republicans and returned to the democrats. If the democrats will accept the modifications there is a possibility that an agreement is in sight, senators said.

But those best informed pointed to a number of obstacles which must be overcome before any suggestion can receive the sixty-four votes necessary to ratify it. First, it was pointed out, much depends upon what President Wilson says in his Jackson day message to democrats. If he again demands unqualified ratification all efforts of compromise may as well be dropped.

### WOOLLEN AND GREATHOUSE ARE PROBABLE ASPIRANTS

Ralston Announces He is Not Candidate for Democratic Nomination for Governor.

By United Press

Indianapolis, January 7.—The democratic field in the gubernatorial race today had narrowed down to three probable aspirants, with the announcement of Samuel M. Ralston, former governor, that he will not enter the race.

Evans Woollen, former state fuel administrator, and Charles A. Greathouse, former superintendent of public instruction, are mentioned as likely to toss in their hats. John Isenberger, of North Manchester, is the only avowed candidate.

In a letter to A. C. Sallee, state chairman, former Governor Ralston thanked Sallee for inquiring on this point, but said that private reasons prevent him from trying for the nomination. He also said he would not run for the democratic nomination to the United States senate for which he has been mentioned. Thomas Taggart, former senator, may be put forth by the democrats at their senatorial choice.

## MEXICAN OFFICER SLAYS AMERICAN

Gabriele Porter, in Employ of Penn-Mex Company, Killed at Tuxtlan December 21.

December 21.

### SITUATION IS COMPLICATED

Details of Murder of Two Employees of International Petroleum Co. Not Received.

By United Press

Washington, January 7—Gabriele Porter, an American citizen in the employ of the Penn-Mex Company, was shot and killed by a Mexican federal army officer at Tuxtlan December 21, the state department was advised today by the American consul at Tampico.

"The consul has been directed by telegraph," the state department announced "to report further information and if warranted by the circumstances to urge the local authorities in the Tampico district to arrest and punish the guilty person."

The state department so far has not received a complete report and the details of the murder of two American employees of the International Petroleum Company.

The killings reported yesterday and that of Porter reported today may bring a new strain on Mexican relations if it is shown that Carranza soldiers are responsible, it was believed here.

While the state department awaited a complete report on the murder near Port Lobos of two American employees of the International Petroleum Company, it was believed today that should it develop that Carranza's soldiers were responsible for the killing, relations between the United States and Mexico would again approach the breaking point.

State department officials have not been advised as to who is responsible for the murders but the American consul at Tampico has been instructed to make a report on the details of the crime.

The American embassy at Mexico City also has been directed to make urgent representations to the Mexican government for the punishment of the murderers.

### OBJECTIONS TO TERMS FORWARDED BY GERMANY

Also Opposes Surrender of Five Light Cruisers To France—Denies Material Sale.

By United Press

Paris, Jan. 7—Germany has sent a note to the peace conference objecting to the proposed trial of German officers who scuttled the interned German fleet at Scapa Flow, by an alleged tribunal, it was learned today.

The Germans also renewed their objection to give up five light cruisers, demanded by France, declaring their surrender would leave Germany without sufficient ships of this type for necessary patrol duty.

The note reiterated the German denial that marine materials, demanded in the Scapa Flow compensation article of the protocol had been sold since November 3, 1919, as the allies have claimed.

Germany said she did not object to the absence of American representatives on the various commissions charged with the execution of the peace treaty, which is to be declared effective Saturday.

The Hungarian delegation has arrived here to prepare for bringing about peace between Hungary and the allies.

### 1,000 DEAD IN EARTHQUAKE IN STATE OF VERA CRUZ

Mexican Officials Declare Toll is Much Heavier Than Early Reports Indicated.

By United Press

Mexico City, January 7—The secretary of war announced late today that official advices had been received that at least 1,000 persons were killed in the state of Vera Cruz in Saturday night's earthquake. Dispatches indicated that with clearing away of the wreckage the toll of the earthquake all through the state was much heavier than at first believed.

until after the eighteenth amendment goes into effect. The same contention will be made in assaults upon the amendment enforcement act, that under the wording of the amendment Congress can not fix the alcoholic content of a beverage at a lower point than that which makes it actually intoxicating, and, since the enforcement act will then be judged by the powers given Congress by the eighteenth amendment and not by its war powers, there will perhaps have to be a second decision of this question. The court stood five to four on this matter, while on the question of the constitutionality of the act itself the court was unanimous. It may take some time to get all the decisions that will be called for to clear the path of amendment enforcement, but this decision determines absolutely that there will be no more sale of 2.75 per cent beer before the amendment takes effect, unless there is an interim of peace, which, in view of present Senate conditions, even Lloyds would not insure.

### FIVE SUNDAYS IN SHORTEST MONTH

(Continued from first page)

Five days upon which bachelors may not seclude themselves in the inner regions of their offices and stores, but must come forth and run the gauntlet. And to make matters worse the second Friday of February falls on the thirteenth. But in view of leap year possibilities, even February, Friday 3, may not be unlucky for everybody, that is if they grasp the opportunities which are afforded by the calendar.

Sunday will be an important day in 1920. Many of the principal holidays and days of celebration fall on that day. In such cases, however, either Saturday just preceding or Monday just following will be observed. Among the holidays falling on Sunday are Washington's birthday, Decoration Day, Independence Day and Halloween.

The only remaining week day in January which stands out in red on the calendar is the 29th, which will be observed as McKinley Day.

Ground hog day which is always given attention comes on Monday, February 2. Lincoln's day will be observed on February 12 and Valentine day on Saturday, February 14. Ash Wednesday will be observed on February 18.

In March comes St. Patrick's day on the 17th, and spring is expected to begin officially on Saturday, the 20th. Sunday, March 28th, will be observed as Palm Sunday.

Good Friday comes on April 2 and Easter will be observed on April 4, the first Sunday in the month. The almanac designates Sunday, May 9, as Mothers' day, and Thursday, May 13 as Ascension day. Decoration day will be celebrated on Sunday, May 30.

Summer will begin this year on Monday, June 21, which will be the longest day of the year.

The only holiday in July comes on Sunday the Fourth, but the official observance of Independence Day will be observed either on Saturday the third or Monday, the fifth. Nothing is promised for August except plenty of hot, sultry weather. September will bring Labor Day on the sixth, and autumn will begin officially on Thursday, the 22nd. October closes on Sunday and because of this fact Halloween is designated on that day.

Thanksgiving, of course, will be observed on the last Thursday in November, which will be the twenty-fifth day of the month. Christmas will fall on Saturday, December 25.

### ADVOCATES PLUMB

#### PLAN IN ADDRESS

(Continued from first page)

the mileage had increased from 30,000 in 1871 to 250,000 at the present time. He said that in order to make headway the people of the United States gave great encouragement and for this reason the public is entitled to some consideration in their management, distribution of powers, service and financial returns. He mentioned the case of the Northern Pacific Railroad which, he said, was given millions of acres of public lands and millions of dollars in cash for construction. He also spoke of the development of the great oil interests and their alleged association with dominating powers in railroad management.

He said the Plumb plan of railroad management is not revolutionary and promised for it a reduction of overhead expense for the shippers. The plan promises, he said, to lower freight and passenger rates to the minimum without reducing the rolling stock or the efficiency of the lines. He predicted that the plan would eliminate strikes and improve service. Mr. Hayward then discussed the steel and coal strikes and said that "few people are aware that the steel workers are employed twelve hours a day, alternating eleven and thirteen hours." He condemned the attitude of Judge Gary, whom, he said, "has delegated to himself the power to direct the human progress of the steel employees."

"The responsibility for the unrest does not direct itself wholly towards the labor class," Mr. Hayward said, "but in a large degree towards the breaking down of industrial generalship. With a new day dawning, a return of millions of men who have been swept from their natural circles of concentrated selfishness into the warmth of a new brotherhood, with the awakening power of a world war that has jarred us loose from old traditions and customs by its high-minded slogans, with the rebirth of national pride, patriotism and industry, it is important that the man who works has no patience with the industrial leader who calls for 'business as usual.' At a time when production and good will should be at its highest, when the understanding between men should be as generous as the new day we are restless, we have an underground of unrest."

"The time has come when a new viewpoint is necessary and we must come to a common understanding that labor is a cooperative agency and not a commodity to be purchased on the market at will. Arbitration, agitation, investigation, human welfare agencies, unionism, legislation, all have their place in the new adjustment, but not until the proper adjustment of relations, namely bringing employer and employee on a more human plane, in which the whole man shall receive the attention and interest of his fellow workmen, will we arrive at anything like an adequate adjustment."

### MUST SHOW GROSS AND NET INCOMES

(Continued from first page)

500, and no dependents except his wife will pay \$20 instead of \$30.

The surtax rate is 1 per cent on the net income in excess of \$5,000 and not over \$6,000, and increases by steps of 1 per cent for each \$2,000 of net income up to and including 48 per cent on net income in excess of \$98,000 and not over \$100,000. From this point the rates run as follows: Fifty-two per cent on net income over \$100,000 and not over \$150,000, 56 per cent on net income over \$150,000 and not over \$200,000, 60 per cent on net income over \$200,000 and not over \$300,000, 63 per cent on net income over \$300,000 and not over \$500,000, 64 per cent on net income over \$500,000 and not over \$1,000,000, and 65 per cent on net income over \$1,000,000.

The following illustration will show the average taxpayer whose net income was more than \$5,000 how to compute his tax:

A single man had a net income for 1919 of \$6,000. First he deducts his personal exemption of \$1,000, leaving a balance of \$5,000. On the first \$4,000 he pays at the normal rate of 4 per cent, \$160. On the remaining \$1,000 he pays at the normal rate of 8 per cent, \$80. In addition he pays a surtax of \$10, 1 per cent on the amount of his net income between \$5,000 and \$6,000. His total tax is \$250, as compared with \$370 for 1918.

A married man with two dependents had a net income for 1919 for \$7,500. From this he deducts his personal exemption of \$2,000, plus \$200 for each dependent. On the first \$4,000 of the balance of \$5,100 he pays, at the normal rate of 4 per cent, \$160. On the remaining \$1,100 he will pay, at the normal rate of 8 per cent, \$88. On the amount of his income between \$5,000 and \$6,000 he pays a surtax of 1 per cent, or \$10.

## How Competition Helps You

The competition that exists among the hundreds of meat distributors, large and small, means

Rivalry in Prices  
Rivalry in Service  
Rivalry in Economy  
Rivalry in Quality

Swift & Company sells meat at the lowest possible price, consistent with quality and service. Our profit of only a fraction of a cent a pound on all products is evidence of keen competition.

Swift & Company must provide the best service to your dealer or he will buy from our competitors. This means a supply of fine fresh meat always on hand for you at your dealer's.

Swift & Company must keep down manufacturing and selling costs, and use all by-products to avoid waste, or else lose money meeting the prices of competitors who do.

Swift & Company must make its products of the highest quality, or see you turn to others. This means better meat for you and a greater variety of appetizing, wholesome food.

We are as glad for this competition as you should be. It helps to keep us on our mettle.

Swift & Company, U.S.A.

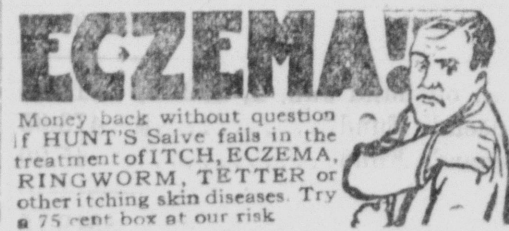

On the amount of his income between \$6,000 and \$7,500 he pays a surtax of 2 per cent. The total, normal and surtax, is \$288 as compared with \$412 for 1918.

Husband and wife whose combined net income for 1919 equalled or exceeded \$2,000 must file a return, either separate or joint as desired. A widow, a woman living apart from her husband, or a maid must file a return if her net income equalled or exceeded \$1,000. A minor whose income for 1919 was \$1,000 or more must make a return. If the minor's income was less than \$1,000, it must be included in the return of the parent.

### FERTILIZER PLANTS MAY BUY INFECTED CARCASSES

**Removal, However, Must Be Made in Compliance With Certain State Regulations.**

Inquiries have been made by farmers in several parts of the county relative to the state law which governs the removal of carcasses of hogs and other stock which have died of disease or have been killed because of infection.

Certain regulations are laid down by the authorities to prevent the spread of disease by the removal of the carcasses. It is explained that such stock may be sold to fertilizer plants and may be removed from the farms where they died, if they are taken away within twenty-four hours after they die and are removed in vehicles having tight beds. The wheels of the conveyance must be fumigated before the conveyance leaves the farm. The purpose of the restrictions, it is stated, is to prevent the spread of cholera and other diseases by the careless handling of infected carcasses.

In some sections of the county, it is said, the erroneous impression prevailed that infected carcasses could not be sold to fertilizer plants and must be burned on the premises.

Biliousness, Headache, Colds, Constipation, driven out with "Cascarets"

Why take nasty cathartics, sickening salts, or stomach-turning oils to drive these rascals out? Let gentle, harmless Cascarets remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your skin sallow your breath offensive, and your stomach sour. Get a box of Cascarets at the drug store and rid your liver, stomach, and bowels of the excess bile, poisons, and waste which are keeping you miserable. Cascarets never gripe, never sicken, never inconvenience. They cost so little and work while you sleep.

### COURT OF INDUSTRIAL RELATIONS IS PLANNED

**Kansas Lawmakers Gather in Special Session to Consider Governor Allen's Proposal.**

By United Press

Topeka, Kas., January 6—Kansas lawmakers gathered in special session here yesterday to create "a court of industrial relations," to make labor strikes unnecessary.

The legislators had before them Governor Henry J. Allen's proposal for such a court to protect the rights of the people. The object of the measure is not to provide for arbitration, but for the legal and speedy adjudication of labor disputes by a court of last resort.

It is known Governor Allen expects the legislature will go the limit in declaring strikes unlawful and the inciting of strikes or walkouts in the production of the essentials of life subject to severe punishment.

The governor's proposal is the result of his ideas written with first-hand information on the "industrial court idea" obtained from labor leaders, employers and theorists. Ever since the nationwide steel strike, Governor Allen and his advisers have sought some means of handling labor disputes, to make labor responsible for its acts and to try to prevent the tying up of industries and forcing upon the people such suffering as that experienced in the recent coal strike. The "industrial court" is the result.

An almost parallel purpose of the governor in calling the special session was to provide for the expense of the national guard in the state's operation of the coal mines during the coal strike. A fund is needed to care for a deficit in the national guard funds.

Today opens the third session of the state lawmaking body to be held during the Allen administration. It sets a record in the matter of special sessions. The regular session of the legislature was convened in January a year ago, the governor called a special session during the summer of 1919 to ratify the federal suffrage amendment and now the present session. It is the first time in the history of Kansas that more than one session has been convened by the same executive.

Governor Allen covered three proposals in his measure read today.

They are:

The establishment of an industrial court.

Complete re-writing of the workman's compensation law.

Establishment of a state employment bureau.

Besides these, the club women of the state have offered a bill authorizing construction of dormitories for girls at the state schools and Attorney General Hopkins has presented an anti-profiteering law "with a few teeth in it" for enactment.

A precedent for time consumed in special session also will be established according to indications today. It is estimated that the present session will extend over two weeks, despite the regular limit of ten days.

### PLACES TO BE FOUND FOR DISABLED SOLDIERS

**Civil Service Commission Will Soon Announce Plan of Cooperation.**

Washington, D. C., January 6—Soldiers who are partially disabled from wounds received in the war are to be assisted in finding employment in civil positions under the war department, according to information received from the U. S. civil service commission.

It is stated that the war department, the federal board for vocational education, and the civil service commission will within a few weeks have completed a plan they have had under consideration for some time, one of cooperation whereby the employment under the war department of partially disabled soldiers, including those who ordinarily would be barred from civil positions because of their physical condition, will be facilitated in every way possible, and which will permit the employment of partially disabled men on the same basis as those who have not sustained physical injury.

The war department has considerably more than 100,000 civilian employees in its various establishments, and it is believed by government officials that this large force can absorb several thousand partially disabled men without serious detriment to the service.

The civil service commission states that a circular setting forth the plan in full will be ready for distribution in two or three weeks.

### OFFICIAL INVESTIGATION LOOMS AMONG POSSIBILITIES

**Law Governing Agricultural Board May Be Changed—"Inside Group" in Control.**

Indianapolis, Jan. 7—Governor Goodrich today was ready "to go to the bottom" of the charges of irregularities in election of members of the state board of agriculture. He said he would order an investigation by the state board of accounts if he considers such a step justified after he has conducted a personal inquiry.

An official investigation would lead to recommendations for new legislation governing the agriculture board, the governor said.

Some of the members charged yesterday after the stormiest session in the history of the board that unfair tactics had been the resort of the "inside group" to place their men on the board.

undemocratic tactics brought a statement from Governor Goodrich that he would order an investigation of the election by the state board of accounts, if his own inquiry sustained the reports circulated after the balloting terminated.

The Governor said an official investigation, if one is ordered, would pave the way for recommendations to the legislature for sweeping changes in the law governing the board.

The Governor said that none of the charges circulated informally by the foes of the controlling group had been brought to his attention, but if he found there was any basis for the complaints he would not hesitate "to go to the bottom of the matter."

After the complete success of the "inside group" in the election of their candidates to membership on the board, the meeting later in the day for the purpose of choosing officers for the ensuing year became merely a matter of routine. Samuel J. Miller of Indianapolis was elected president. He succeeds Charles N. Lindley of Salem. Thomas Grant of Lo-

well was named vice president; Charles F. Kennedy was re-elected recording secretary. William M. Jones financial secretary and Forrest Neal superintendent of grounds.

The election was held in the House of Representatives chamber. Veteran politicians declared that in all their experiences they never witnessed such a tempestuous meeting or one in which the "inside administration group" held such complete sway.

Besides the members of the county fair associations, whose delegates have the right to elect the members of the state board, the chamber was packed with interested spectators desirous of seeing the battle and anxious to see what would happen to Mr. Lindley and Mr. Miller as a result of disclosures in the report of the state board of accounts Monday. This report contained sharp criticism of the board on account of the building operations at the State Fair Ground last summer.

C. E. Loertz transacted business in Indianapolis today.

Miss Lorita Bollinger left this morning to re-enter Ely Court, Greenwich, Conn., after spending the holidays in this city with her parents, Mr. and Mrs. E. C. Bollinger. She was accompanied to Indianapolis by her mother.

World Service Program.

## \$3,000,000 NEEDED FOR WORK.

Leader Calls Association a "Stabilizing Influence" in Outlining Post-War Program for Women—Federal Council of Churches to Announce "Y. W. C. A. Sunday."

Mrs. John D. Rockefeller, Jr., chairman of the National Educational Campaign Committee of the 1920 World Service Program of the Young Women's Christian Association, has made the following statement:

"Since the war we are more than ever aware of the economic, industrial, educational, social and religious difficulties which beset the lives of girls and women everywhere. In meeting the post-war needs of women the Young Women's Christian Association stands as an instrument of service, tested and proven by war, and organized to meet the manifold problems of peace."

"Because of its fifty odd years of experience in meeting fundamental problems affecting girls, the Young Women's Christian Association is an organization particularly fitted to exert a stabilizing influence upon the troubled times through a consistent program of

service for girls and women. "American women are asking how they may share in the world's reconstruction. They can do so by enlisting the support of their communities for this World Service Program, which will insure to the world a healthier and better womanhood."

"This campaign of the Y. W. C. A. to tell the people of the United States about its work and to raise \$3,000,000 with which to carry on Y. W. C. A. work during 1920 in the United States, Europe, China, Japan, India, South America, Egypt, Siberia and Mexico will close the week of February 22 to 29, which will be known as Y. W. C. A. Week."

"The Federal Council of Churches will probably set one Sunday as a time for ministers throughout the country to address their congregations on general conditions affecting women and the Young Women's Christian Association as an instrument of service."

"The immediate task is to bring to the people of the United States a knowledge of conditions affecting the

lives of women in all parts of the world. We can no longer ignore the character, the manner of life and the ideals of other peoples, whether we want to or not. A special call is now coming to the Association from China, Japan, India and South America, where work was held back during the war because of the necessity for special activity in France and the United States.

"The World Service Program calls for \$4,500,000. Of this amount \$1,500,000 has already been secured."

The educational campaign committee includes among its members Mrs. Robert E. Speer, president of the National Board of the Y. W. C. A.; Mrs. Henry P. Davison, Mrs. William Van V. Hayes, Mrs. Robert L. Dickinson, Mrs. William Adams Brown, Mrs. Van Sanford Merle-Smith, Mrs. Lewis H. Lapham, Miss Ellen Hale Stevenson, Mrs. Frederic B. Pratt and Mrs. Herbert Lee Pratt.

TOWN GIRLS TO  
HAVE Y. W. C. A.

Association Maintains 52 Town  
Secretaries—Wants to Ex-  
pand Work at Once.

"During the war girls all over the world had their first lesson in nation wide and world wide thinking," says Miss Mabel Head, director of Town and Country Work for the National Y. W. C. A.

"Girls learned something of the inspiration of working with hundreds and hundreds of other girls, unselfishly and unstintingly, through Red Cross work. Now the Y. W. C. A. through its world wide program of service for women, is planning to expand its work so that girls all over the world, and particularly in smaller communities, will not lose this experience."

"Citizenship forums are being organized for girls in small communities where girls may come together to learn more about their country and their responsibility to it and as citizens of the world."

"Reading courses have been planned at National Headquarters in New York so that a girl in any community may carry on a course of study, either by herself or with other girls, on a wide variety of subjects."

"The Y. W. C. A. has at present thirty-nine secretaries doing county work. This means that they travel about from one community to another helping girls to plan out social, recreational, educational and religious activities for themselves and organizing them to carry on these activities. These secretaries work with the county agents of the Department of Agriculture in carrying on home economics work. They help plan pageants, arrange benefits assist the girls in going to Y. W. C. A. summer conferences and help plan all sorts of social good times for the community."

SMALL Y. W. C. A. IS  
COMMUNITY CENTER

Recreation for Girls Is Important Feature of Work.

Fifty-two young women in the United States are known as Y. W. C. A. "town secretaries." All of which means that the fifty-two are organizing recreation work for girls and for the community at large in towns of less than 10,000 inhabitants.

The Y. W. C. A. may be in one rented room or more. It may be a whole building, but at any rate there is a recreation room and if possible a kitchen, reading and writing rooms. If the Y. W. C. A. has a building of its own it becomes a community center, where all women's organizations may meet.

### Great Eastern Centers of Production Near Exhaustion.

### U. S. FORESTER URGES ACTION

High Prices of Lumber Not Wholly Due to Increased Costs of Production—Mills of the South Have Not More Than 10 to 15 Years' Supply of Virgin Lumber—Enlarged Program of Public Acquisition of Forests Urged.

The rate of depletion of the forests of this country is more than twice, probably three times, what is actually being produced by growth in a form serviceable for products other than firewood. Consequently, high prices of lumber are not wholly due to increased costs of production. An important factor is the ever-retreating sources of timber supply. Already the supplies of all the great eastern centers of production are approaching exhaustion, with the exception of the South, and even there most of the mills have not over 10 to 15 years' supply of virgin timber. Already the southern pine is being withdrawn from many points as a competitive factor and its place taken by western timbers. This inevitably results in added freight charges, which the consumer must pay.

### Want Enlarged Program.

These facts are called to public attention in the annual report of the forester of the United States department of agriculture, recently published. Their presentation is accompanied by a plea that the nation adopt an enlarged program of public acquisition of forests by the government, the states and municipalities; and protection and perpetuation of forest growths on all privately owned lands which may not better be used for agriculture and settlement.

In the early years of the present century it looked as though the management of forests as permanent, productive properties might be voluntarily undertaken by private owners on a large scale, but since then the situation has materially changed. The need for the adoption of an enlarged program of acquisition, the United States department of agriculture points out, has become increasingly urgent.

### FOR SUNSHINE LAND.

I want to hear the steamboat blow for sunshine land away.

I want to hear the whistle sing for blue leagues down the bay.

I want to hear the old stevedore yell out the bow line's free—I want to go to sunshine land That lies in the fairy sea.

I want to watch the barge's sail spread snowy in the light.

I want to be beneath the sky in the starry autumn night.

I want to hear the captain roar And the mate pass on the sign; I want to sail to the sunshine land On the ships of the elin line.

I want to leave the winter world and all the storms that fret.

I want to go to a summer clime and play I'm a youngster yet.

I want to hear the steamboat blow, And I want to be right there When she shows her heels and her old side wheels.

Throw the spray high in air.

## HUDNUTS Quickmush It's Great!

### Makes a Real Meal

Breakfast in the great American home is not complete without a cereal to start the day right.

Quickmush cereal can be cooked and served in ten minutes. Its rich, creamy flavor appeals to every member of the family, from the little tots in high-chairs to the man of the house.

They never tire of its wholesome, healthful, appetizing qualities. It's very easy to digest. Invalids thrive on it.

Try these Delicious Dishes for Breakfast, Lunch or Dinner

For rich creamy cereal, stir one cup of Quickmush into five cups of cold water, salted to taste. Boil ten minutes and serve piping hot with cream and sugar.  
One cupful of Quickmush makes enough cereal for five people.  
For Fried Quickmush, put leftover cereal in a mold. When cold, slice and fry to a crisp brown. Serve with butter and syrup.  
These are typical of the many economical "Hasty-Tasty" dishes that can be prepared with Quickmush.

ATTEMPT MADE TO REVISE  
PENNSYLVANIA BASIC LAW

First Effort to Amend or Charge Constitution in Its Entirety Since Adoption in 1873.

By United Press

Harrisburg, Pa., Jan. 7.—The first attempt at revising or amending the present Pennsylvania state constitution in its entirety since its drafting in 1873 is now underway. A body of twenty-five prominent statesmen, farmers, constitutional experts, students, forestry and county boundary line experts have been given the task. The body, the Commission on Constitutional Amendment and Revision, was appointed by Gov. William C. Sproul under an act

of the last state legislature.

Many attempts have been made before the legislative bodies to obtain amendments but this is the first time a body of men has sat to go over the organic laws of the state in their entirety, to study them and make such revisions and amendments as they see fit, to be recommended to the legislature of 1921. Should such amendments and revisions be accepted by the legislature, the question of a Constitutional Convention will be put to the people at the 1921 elections and if accepted, the legislature of 1923 will authorize the Convention.

B. J. Lemon and a party of salesmen and demonstrators for the United States Tire Co. spent the night in Seymour on business with J. H. Williams & Son. The party is touring the country on a trip of 3,300 miles with two heavy trucks that have been in use since 1911 running on pneumatic tires. They left Detroit Aug. 22 and are now on their way back to Chicago for the automobile show to be held there.

### MEASLES KEEP MANY AWAY FROM SCHOOL

Samuel B. Moore, County Truant Officer, Reports Many Children Sick.

Measles are keeping many children away from school in this city and throughout Jackson county, according to Samuel B. Moore, county truant officer. According to reports received by the truant officer practically all of the schools in the county have some of the students out with the measles.

Mr. Moore has had but little trouble this season in keeping children in school. However, some children have been kept out of school on unreasonable excuses and as a result the matter has been taken up with the parents and guardians. The truant officer has filed charges against eight persons in the county for failure to keep their children in school regularly and these cases will come up for trial in circuit court next Monday.

### GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

"Wrong! It was one of the bravest things I ever heard of. And I know the rest—your encounter with Kirby in the library. I overheard all of that through the open window, and how you learned from him that certain legal papers would have to be served on Eloise Beauchamp before any of the slaves could be touched, or removed from the estate. That knowledge only brought you new courage to play out your part. But why did you trust me enough to go with me? And, after trusting me so fully, why did you refuse to tell me who you really were?"

Her eyes fell before mine, and her cheeks were flushed.

"You think that strange? I did trust you, Lieutenant Knox, and I trusted you more completely the longer we were together. But—but I did not wholly understand. You were endeavoring to rescue Rene from slavery. I could not conceive what interest you might feel if I should confess myself Eloise. You were strange to me; and there she alone with the negro, and—and somehow it seemed a protection to me to claim a drop of black blood. Twice I thought to tell you—the words were on my lips—but something stopped them. Possibly, just a little, I was afraid of you."

"Then—but not now?"

"No, not now—not even a little; you have proven yourself all I ever hoped you would be. I am glad—so glad—to say to you now, I am Eloise Beau—"

She stopped suddenly, the word half uttered, the smile fading from her lips. "My God!" she burst forth. "But I am not! I am not! Why, I never felt the horror of it all before—I am not Eloise Beauchamp!"

A moment I stood motionless, seeming to hold my breath, my eyes open struck silent by the intense bitterness of that cry. Then the reaction came, the knowledge that I must turn her thoughts elsewhere.

"Do not say that, or even think it, I urged, scarcely able to restrain myself from grasping her in my arms. 'Even if it shall prove true—legally, true—some way of escape will be found. The others are safe, and you

**SUFFERING OF YOUNG WOMEN**

**This Letter Tells How it May be Overcome—all Mothers Interested.**

Fort Dodge, Ia.—"From the time my daughter was 13 years old until she was 16 she suffered so badly each month, that sometimes I had to call in the doctor. She had headaches, backache, and such pains and cramps that she would have to stay in bed two or three days. She became terribly run down in health and at last a friend who had used Lydia E. Pinkham's Vegetable Compound told her about it and she has used sixteen bottles, and we always have it in the house. She feels fine now and she has no trouble at all each month. We always praise it and advise any friends who suffer to use your wonderful medicine."—Mrs. MINNIE MANDELKO, 1005 S. 18th St., & 10th Avenue, Fort Dodge, Iowa.

Girls who are troubled as Miss Mandelko was, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

are going to need all your courage. Pledge me to forget, to ignore this thing. I need you."

Her hands fell nerveless and her questioning eyes sought my face.

"You are right, Lieutenant Knox," she said frankly. "I owe my loyalty now to you. I shall not yield again to despair; you may trust me—my friend."

The day was not ended when we finally retraced our way across the narrow dyke to the mainland, prepared to resume our journey. The passage was slow and dangerous, and we made it on foot, leading the horses. The woods were already beginning to darken as we forded the north branch of the creek and came forth through a fringe of forest trees into a country of rolling hills and narrow valleys. The two girls were already mounted, and Tim and I were busily tightening the straps for a night's ride, when, from behind us, back in the direction of the peninsula we had just quitted, there sounded the sharp report of a rifle. We straightened up, startled, and our eyes met. There could be but one conclusion—our pursuers had found the trail.

To my mind, seated on that island in the morass, a map spread before me, a hundred miles of travel had not appeared a very serious matter, but I was destined to learn my mistake. The close proximity of the men seeking to overtake us—as evidenced by that rifle shot—awoke within us a sense of imminent danger and drove us forward through the fast gathering darkness at a perilous pace, especially as our mounts were not of the best.

We rested for an hour at midnight, on the banks of a small stream. The sky had lightened somewhat, and we could perceive the way fairly well when we again advanced, now traveling through a more open country, a prairie, interspersed with groves of trees. Daylight overtook us at the edge of a slough, which bordered a little lake, where in the gray dawn, Tim, by a lucky shot, managed to kill a crippled duck, which later furnished us with a meager breakfast. In the security of a nearby cluster of trees, we ventured to build a fire, and, sitting about it, discussed whether to remain there or press on. It was decided to remain where we were and rest.

I need not dwell on the details of our flight. They remain in my memory in all clearness, each scene distinct, each incident a picture engraved on the mind. My map proved utterly useless, confusing me by its wrong location of streams, and its inaccuracy in the estimation of distances. We must have wandered far to the north from our direct course, led astray in the dark, and by our desire to advance swiftly. For there soon came to us warning signs that we were indeed being pursued; and some evidence also that we were even within Indian territory.

The savages had left their unmistakable mark for our finding. It was in the early twilight of the second day, the western sky already purple with the fast fading colors, the prairie before us showing in patches of green and brown. To our left was a thick wood, even then grown gloomy and dark in shadows, and slightly in advance of us Kennedy rode alone, hopeful of thus dislodging some wild animal. I could see the gleam of the pistol in his hand, held in instant readiness, cocked and primed. Suddenly he drew rein, and then, turning his horse's head sharply, advanced cautiously toward the miniature forest, leaning forward to gaze intently at something unseen from where we were. He halted his horse, which pawed restlessly, and sat motionless, staring down into a little hollow immediately in front of him; then he turned in the saddle, and beckoned me.

"Cum over yere, Cap," he called, his voice sounding strange. "No, not the girls; you cum alone."

I rode forward and joined him, only to stare also, the heart within me almost ceasing to beat, as I beheld the gruesome sight so suddenly revealed. There, within the confines of that little hollow, almost at the edge of the wood, lay the dead and mutilated bodies of eleven men, in every distorted posture imaginable, some stripped naked, and showing ghastly wounds; others fully clothed; but with the cloth hacked into rags. It had once been a camp, the black coals of a fire still visible, with one man lying across them, his face burnt and unrecognizable. With the exception of one only—a mere boy, who lay a few rods away, as though brought down in flight—the entire group were together, almost touching each other in death. Beyond question they had been soldiers—militia volunteers—for while there was only one uniform among them, they all

**URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY**

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

**Says: Inflamed Nostrils Invite Influenza**

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy, made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and sniff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

**Important Reminder:** Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

...see what's yere—down yonder, enter the valley."

I took one more glance at the sight, fascinated by its very horror, then wheeled my terrified horse, and rode back. Heartless as his words sounded, they were nevertheless true. We could be of no aid to the dead, while upon us yet rested the duty of guarding the living. The young negroess lifted her head, and gazed at me dully, so thoroughly tired as to be indifferent as to what had occurred; but Eloise read instantly the message of my face.

"You have looked upon something terrible," she cried. "What was it, a dead body?"

"Eleven dead bodies," I answered gravely, my lips trembling. "A squad of militiamen were surprised by Indians over there, and slaughtered to a man, apparently with no chance to even defend themselves. I have never seen a more terrible sight."

## SUN'S RAYS AS WAR WEAPON

Airplanes, "Roosting" High, May Work Terrible Havoc.

Airplanes, "roosting" 15,000 to 20,000 feet in the air, will, through the use of powerful lenses, destroy ammunition dumps and entire cities 75 to 100 miles away without firing a shot or dropping a bomb, declared Capt. Eddie Rickenbacher of Columbus, O., America's ace of aces in the war with Germany, while before the house committee on accounts in Washington.

Captain Rickenbacher noted that by the use of the lenses it will be possible to set fire to the object which the aviator wishes to destroy, just as it is possible to set fire to paper or wood under the magnifying glass held in the rays of the sun.

"Future wars will be won or lost in the air," Captain Rickenbacher observed. "That is true because just such devices as I have mentioned will be brought into play."

Nine U. S. Aces Still in Service. Nine of the 60 "aces" developed by the United States air service in the world war still are connected with the army, according to an official report.

Cut Off Cat's Tail to Cure Animal. Found guilty of cutting off the tail of a family cat to cure the mange, Joseph Farrone of New York city, was fined \$15 in court.

## Y. W. C. A. CALLS BIG CONVENTION

2,000 Women Expected to Gather in Cleveland the Week of April 13-20, 1920, for National Convention.

## MEETING POSTPONED TWO YEARS BY WAR

Delegates Will Discuss New Membership Basis for Students and Question of Future Support for Work. Many Other Things.

The Young Women's Christian Association of the United States of America will meet in national convention in Cleveland, O., the week of April 13 to 20, having postponed the convention from the spring of 1918 in order to comply with a government request that expense and travel be reduced to a minimum during the war.

The department on conventions and conferences of the National Y. W. C. A., of which Mrs. Harry Emerson Fosdick is chairman, estimates an attendance of 2,000 women, representing all departments of Y. W. C. A. work—board members, secretaries, students, club girls, Girl Reserves, girls from Industrial Service Centers, women from the International Institutes for foreign born women, members from city, town and country Associations.

Each Association in the United States will be entitled to one voting delegate for every one hundred voting members in the Association.

Two of the most important questions which will come up before the convention will be the membership basis and the question of support. Of old business to be considered the most important question will be the membership basis for student associations, the granting of charter membership privilege to the Chicago Young Women's Christian Association and a recommendation providing an increase in membership of the National Board of the Association will also be presented.

Rev. Charles W. Gilkey, pastor of Hyde Park Baptist Church, Chicago, will give a series of morning addresses during the convention week. Dr. Robert E. Speer, secretary to the Foreign Mission Board of the Presbyterian Church, North, will also give an address. Mrs. Speer is chairman of the National Board of the Y. W. C. A.

The convention will be in session morning and evening, the afternoon being given over to sectional meetings held in various churches. Attendance at these meetings will be determined by group membership and also by activities.

Mrs. W. P. Harford of Omaha, Neb., will preside at the opening session, having been elected as president at the last convention of the Young Women's Christian Association, held in Los Angeles in 1915.

The committee on business to come before the convention has for its chairwoman Mrs. John French and includes among its members Mrs. John D. Rockefeller, Jr., Miss Eliza Butler, sister of Nicholas Murray Butler, president of Columbia University; Miss Martha McCook, Miss Mabel Cratty, general secretary for the National Board of the Y. W. C. A., and Mrs. William Adams Brown, all of New York city.

## Notice.

In the matter of the petition of the School City of Seymour, Jackson County, for approval of refunding bonds in the sum of \$27,000. No. 1001.

Notice is hereby given to the taxpayers of the City of Seymour, Indiana, that the School City of Seymour, Indiana, has filed its petition with the State Board of Tax Commissioners of Indiana for authority to refund \$27,000 of the outstanding indebtedness of said School City, and for that purpose to issue and negotiate refunding bonds to the aggregate amount of \$27,000 bearing 5 percent interest, payable semi-annually; and notice is further given that said matter will be heard by said State Board of Tax Commissioners at its office in the State House, at Indianapolis, Indiana, on January 27, 1920. Seymour School City, of Seymour, Ind.

By Don A. Bollinger, Clark B. Davis, j714d and Claude Carter, Trustees. January 7, 1920.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. \*10c and 25c a box.

## NEWSY PARAGRAPHS

Mrs. J. H. Grice, who underwent a major operation at the Schneck Memorial Hospital several days ago, is slightly improved today.

Grace Alberta, the two-year-old daughter of Mr. and Mrs. Henry Metz, Uniontown, fell from a chair Tuesday and fractured her right arm.

George Lewis and P. F. Morrison of Uniontown, drove to Indianapolis Tuesday with a lot of hors. On the return trip they were unable to get farther than Azalia with the truck.

Callen Barnes left today for New York where he has accepted a position. He was recently relieved from service in the Rainbow division and for several weeks after his return here was ill due to exposure while in France. His health is much improved now.

The members of the Senior class of the Crothersville High School were in this city Tuesday afternoon to have their pictures taken for the high school annual, which will be published soon. The class members are Misses Hayes, Fay Ritz, Thelma Butts, Inez Kerner, Mary Garriott, Mona Bridgewater, Hazel Donnell, Lucy Ballard, Bertha Kiewitt, Margaret Tilford, Lucille Nichols and Clara Hall.

Mr. and Mrs. Albert A. Whaley of Pasadena, Calif., were the guests of Mr. and Mrs. J. T. Jones, North Chestnut street, enroute to Herrin, Ill., for a visit for four or five days with his sister before returning to their home. Mr. and Mrs. Whaley have been visiting their former home in Flat Rock. They have been in California for the past thirteen years. Mr. Whaley was formerly employed on the Pennsylvania railroad.
